

ASIA CENTER PRESENTS

# Bridging International Borders in Academia: Equity, Diversity, & Inclusion

## *Conversations of WoCA Faculty & Students.*

The University of Utah's Women of Color Academics (WoCA) Collective, Asia Center, and the Asian University for Women, Chittagong, Bangladesh are proud to host a panel to celebrate Women's History month.

This panel is the first of its kind to work toward a collective initiative to enhance awareness and access to academic careers for undergraduate women from diverse backgrounds in Asia and the United States. We aim to facilitate conversations and gain insight about reaching and engaging students that have historically faced obstacles in accessing graduate school and academic careers as a result of social, economic, and institutional barriers.

### Event Schedule:
